- Teamwork and Independent Work

LANGUAGE

VietNameese 

Japanese 

English 

ABOUT ME

With a strong passion for Web development, I often spend my free time acquiring knowledge of various technologies used in this field. I am excited to work in a young and dynamic environment where I can continuously enhance my skills. My strengths are logical thinking and problem-solving, which I believe I can use to help the company overcome various challenges in the development stage and build valuable applications.
